We are very excited to be the first pediatric dental office in Lafayette. We truly enjoy and feel honored to serve the Lamorinda community and aim to make each dental visit a fun experience that your child will not forget!

Our Tooth Buds name was inspired by the fact that teeth stem from tooth buds, but also that we are "buds" with our patients and their families!

We are two moms living in the Bay Area who want to help support your child's speech and language development!

Caitlin is a pediatric SLP, who has worked with children in the Bay Area for the past 10 years. While she has enjoyed working with children of all ages, she feels very passionately about early intervention, and so much of that starts in the home! When she became a mom to a toddler, Emma, she got to see, from the parent's perspective, how many opportunities for language development are present in every moment of every day with her little girl.

Molly's son, Will, was born with bilateral profound sensorineural hearing loss. Will underwent Cochlear Implant surgery when he was 7 months old and has been "activated" for a little over a year now. He is now able to hear with his CIs! Molly's family has the most amazing team who has guided and taught them so many ways to communicate with Will in the home. Molly has found a true passion for helping others with hearing loss as well as advocating for inclusion and acceptance!

We want to provide toys, tools, and tips to empower each of YOU to be the best language-promoter for your WEE one and his/her developing language... one babble at a time!
